# Warnings

## Read Before Using Your Noita Fair Mod

### EPILEPSY WARNING

A small percentage of individuals may experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain patterns or backgrounds on a screen or while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce undetected epileptic symptoms even in persons who have no history of prior seizures or epilepsy. If you, or anyone in your family, has an epileptic condition, consult your physician prior to playing. **If you experience any of the following symptoms while playing this video game mod - dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movements or convulsions - IMMEDIATELY discontinue use, and consult your physician before resuming play.**

### WARNING TO OWNERS OF PROJECTION TVs

Still pictures or images may cause permanent picture tube damage or mark the phosphor of the CRT. Avoid repeated or extended use of video games on large-screen projection televisions.

# About

This mod is a collaborative effort between more than a dozen modders in the Noita Community. The premise of the project was to make Noita a more difficult game (because it is too easy). We created a blank mod git repo, where anyone is allowed to edit or add features, as long as they are funny, or made the game harder. No specific theme was chosen, instead it was up to the participants to figure out how to piece their features together.

The mod grew surprisingly fast as the community seemed quite interested in the idea, so now we have this wonderful creation which I am sure you will, or won't, enjoy!

We should start a mod collab project that just adds a bunch of bullshit ways to die, like falling stalactites a bunch of mimics of random props, pitfalls, etc. Turn it into those games that were popular like 10 years ago where you constantly died to random shit and had to start over

# Special Controls

## Piss Button

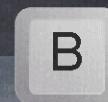

As any seasoned Noita player will tell you, one of the most important buttons is the Piss button. Whether your bladder is full, or you are on fire, don't hold it in.

Tip: You can rebind special keys in mod settings

## Shit Button

As with the Piss button, the shit button is also one not to be forgotten. Not only will it empty your stomach. It will turn your butt into a make-shift rocket thruster.

Tip: Use your shit propulsion to burn yourself to death on the mountain!

Snail fact!

Never give a snail a gun

# Settings

The Mod Comes with a variety of Accessibility Settings, as we wish for this mod to be played by as many people as possible!

## Colorblindness Mode

We are proud to say that our mod includes a Colorblindness Mode setting.

We went through a lot of trouble to make sure even people who HATE and i mean DESPISE color, can still play our mod.

## Lower Resolution Rendering

Is your PC an absolute potato? And I mean are you trying to run Noita on a eMachines eTower? Well this setting will not help you at all!

## 8-Bit Color Mode

Looking for some nostalgia? Want to go back to the MS-DOS glory days?

Well don't look here because this setting just makes the game look worse.

## Invert Y Axis

A standard setting that comes with basically any FPS game and no one actually uses. Wait isn't this a platformer..?

## Arachnophilia Mode

Do you love spiders? Wish you had a curvy spider wife? Well I can't help you with that. However this setting will make sure you will meet SO MANY spiders.

## Steam Cloud

Turn this one off if you want your safe games to survive more than a day!

## The Snail

You cannot remove the snail, the snail is eternal. The snail knows where you live. The snail is coming for you, Geoffrey.

# Features

This mod is jam packed full of features, way too many to list in this little instruction booklet!

However here is a small taste of what this mod will hold...

## Loanprey

An odd fella who mans, or fishes if you will, a stall in the holy mountain. He kind of scares me so i never bothered to talk to him.

Tip: Don't forget to pay your debts!

## Gamba

As we all know, the best way to pay off your debts, is by doubling your money at the slot machine.

It is practically infinite money!

Tip: You due for a win I swear.

## Masks

Go trick or treating with the fun new masks!

Tip: Masks improve your charisma stat.

## A Snail

To spice up your gameplay experience, we have added a snail to the game!

Tip: Snails are immune to damage

## SPEEDRUNNERS

Tip: Wear a helmet.

## New Routes

Even for the seasoned Noita speedrunner this mod will be a breath of fresh air. We have added new speedrun routes for you to take, in order to improve your runs.

## Improved Translations

Want to learn new languages? Well this is the mod for you!

Tip: Memorize button locations.

## Revamped Stalactites

Tired of those boring old rocks? Want some shiny new ones? Well we go you there.

Tip: Snails love rocks

## Improved UI

Added several new UI elements to help you navigate the various features of this mod.

Time: 18:17  
Weather: clear  
Moon: New Moon

Tip: Pay attention to the UI for useful info.
